**Safety Enhanced  
Bathroom Accessories**

**Soap Dish with Integrated Support Rail.** Make a bold statement with this luxurious centerpiece. Removable soap dish is easy to clean and features the seamless elegance of Corian®, a shatterproof surface that resists the growth of mold and bacteria.

**Wall Toilet Roll Holder with Integrated Support Rail.** Soft lines and graceful curves blend effortlessly with practicality and function. Corian® shelves provide ample space for toilet roll storage or other items while the discrete hand rail offers trustworthy support.

**Corner Shelf with Integrated Support Rail.** Sleek curves and clever practicality never go out of style. The Corian® shelf provides a generous surface that can be removed for easy cleaning. The reliable support rail is always within reach to offer a helping hand.

**Accent Ring with Integrated Support Rail.** Add a touch of elegance and just the right amount of support with the Accent Ring. A unique and incredibly solid handrail designed to contour circular shower fixtures and provide support when accessing controls.

## Safety Enhanced Bathroom Accessories

The Invisia™ Collection is based on a simple concept;

### Grab bars should not look like grab bars.

In keeping with this concept, HealthCraft has designed a series of luxurious bathroom accessories that also happen to be grab bars hidden in plain sight.

- **A seamless look and feel.** Common design elements throughout the entire collection allow for a variety of charming combinations to create a consistent look in any bathroom.
- **Integrated support rails with a 350lbs weight capacity.** Professional grade construction combined with superior quality fittings ensure years of reliable service and rock-solid support.
- **DuPont™ Corian® surfaces.** Beautiful shatterproof surfaces that are nonporous and resist the growth of mold, mildew and bacteria.
- **Discreet wall stems with concealed screws.** Meticulously designed wall interface stems render screws and mounting areas virtually invisible and allow the Invisia™ Collection to naturally blend within its environment.
- **Multi-contact wall support.** While two-point contact with the wall structure is standard for most grab bars and bathroom accessories, much of the Invisia™ Collection overachieves with up to 4 points of contact for maximum structural support.
- **2 deluxe finishes.** Magnolia White or Bright Polished Chrome.
